

ab imo pectore

Marion Todres-Masarsky

December 15, 1948 - August 1, 2026

Charles S Masarsky

Dr Charles Masarsky is sad to report the passing of his wife and practice partner, Dr. Marion Todres-Masarsky on August 1.

Marion was the first woman to serve on the Board of Directors of the Virginia Chiropractic Association. She is co-author with me of numerous published papers, some of which have appeared in Asia Pacific Chiropractic Journal.

She is co-editor with me of the textbook Somatovisceral Aspects of Chiropractic. A list of her publications is posted [here](#) under 'About the Doctors', and her voice can be heard in several of the You Tube videos posted at that website.

There has been an outpouring of sympathy from our patients. I don't think Marion fully understood the extent to which she had created a community since we opened here in 1983. A number of colleagues have been in touch as well. This has been a great comfort to me.

Marion's eulogy and funeral service are posted for public access at [Marion Todres-Masarsky Obituary](#) - Visitation & Funeral Information.

Please be well, everyone.
