

Gil Weiner
Chiropractor

Gilbert Weiner, DC is a graduate of New York Chiropractic College, now called Northeast College of Health Sciences in 1978 going directly to Puerto Rico to begin his private practice. There he had an interest in scoliosis and noticed various comorbidities, mainly temporomandibular joint disorders (TMD).

Since beginning his private practice he has actively been investigating scoliosis, its cause and treatment.

Dr Weiner is a consistent contributor to the annual SOT Scientific Conference and you will find more of his work in the proceedings publishing in this Journal.
